A complete guide" as Want to Read: Want to Read saving... | Want to Read. Here you will learn how to draw the human body from a 3/4 view. I choose this view because the majority of tutorials teach you how to draw a person from a front or profile view. This is useful of course, but your final drawing will look too flat and rigid. The most common view used in drawings is the 3/4, especially if you are a concept artist. This view gives a real sensation of depth and three-dimensionality to the characters. So, How to draw the human body? • Later on, you can define better the fingers, the knuckles, etc.. but for now is more important to focus on the big picture and have a well-proportion figure in general. Step 4: Drawing the legs. The next chapter on our journey will be to draw the legs.
