The novel is written in the first person, and for some readers, it may be hard to keep one's perspective. It is easy to be drawn in to the character's experiences through the vivid narration and detail. However, I don't believe that we are meant to identify with him as we would a conventional hero. I don't believe the author endorsed the character's actions, or intended him as a model for the behavior of others, but that he used the character to expose rarely charted realms of difficult experiences that many people have, but that few choose to question or explore. Killing Johnny Fry is the story of Cordell's dark, funny, soulful, and outrageously explicit sexual odyssey in search of a new way of life. It marks new territory for the best-selling author of Devil in a Blue Dress and countless other books; it will surprise, provoke, inspire, and make you blush. Above all it is about a man questioning the rules we take for granted - and the powerful and sometimes disturbing connections that occur between people when these rules are removed. The novel that "Killing Johnny Fry" most recalls is Norman Mailer's great and appalling "American Dream," in which Mailer's protagonist, Rojack, confronts existential dread by indulging in murder and sex and the most insane macho daredevilry. But Mailer was inside that subject, feverishly so " and because he so freely risked ridiculousness the book never felt ridiculous.
