

SCHOOL OF PHYSICAL EDUCATION
DEVI AHILYA UNIVERSITY, INDORE

M.Phil. – I Sem

Research Methodology, Quantitative Methods and Computer Application

Unit – I- Introduction to Research

- a. Location of Research Problem
- b. Criteria for Selecting a Problem
- c. Scientific and Unscientific methods of problem solving
- d. The parts of a Research Proposal and Research Report
- e. Writing the Proposal and Report

Unit – II –Types of Research in Physical Education and Exercise Science

- a. Analytical Research (Historical, Philosophical, Reviews and Research Synthesis)
- b. Descriptive Research (Surveys and Case Studies)
- c. Experimental Research (Internal and External Validity threats and control for internal and external validity)

Unit – III – Ethical Issues in Research

- a. Seven Areas of Scientific Dishonesty
- b. Mistakes Vs Misconduct
- c. Copyright Issues
- d. Protecting Human Subjects
- e. Protecting Animal Subjects

Unit – IV - Statistical Techniques Used in:

- a. Descriptive Statistics
 - i. Use of Measures of Central Tendency and Variability
 - ii. Use and Calculation of Standard Scores
- b. Comparative Statistics
 - i. Two Way ANOVA
 - ii. ANCOVA – (Analysis of Co- Variance)
 - iii. Post Hoc Test of Significance (Scheffe’s, LSD, Tukey HSD)
- c. Relationship Statistics
 - i. Concept of Partial and Multiple Correlation
 - ii. Concept Two Way Regression Analysis
- d. Non Parametric Statistics
 - i. Chi Square and Contingency Table
 - ii. Rank Order Correlation

Unit – V – Practical Approach to Statistical Computation Using the Software

- a. Creating a Data File
- b. Defining variables and its Properties
- c. Computation of Descriptive Statistics (Mean, Standard Deviation, Skewness, Kurtosis, Z Scores etc.)
- d. Computation of Independent and Paired Sample “ t” Test
- e. Computation of One Way and Two Way ANOVA
- f. Computation of ANCOVA
- g. Computation of Correlation and Correlation Matrix
- h. Computation of Chi Square

Computer Application

Unit – I – Spreadsheet Tools (Using Microsoft Excel)

- a. Introduction to Spreadsheet Application
- b. Using Features, Formula and Functions
- c. Data Storage and Features of Statistical Data Analysis
- d. Generating Chart and Graphs
- e. Preparing Small Statistical Programs

Unit – II – Presentation Tools (Using Microsoft PowerPoint)

- a. Introduction to Presentation Tools
- b. Using Features and Functions
- c. Creating Presentation , Adding Effects, Customizing Presentation, Editing Presentation, Inserting Pictures/Graphs/Video, Creating Note Page and Showing Presentation

Unit – III – Web Search and Using Electronic Journals

- a. Introduction to internet
- b. Using Various Search Engin Like Googles, Google Scholar, Yahoo etc
- c. Collecting the Domain name of Various Websites Related with Physical Education Sports and Research.
- d. Using Electronic Journals Related to the Subjects and Area
- e. Using Shodh Ganga, and Inflightnet (Infonet Digital Library, Indcat and e Education)

M.Phil. Semester– I

Review of Related Literature

Unit – I – Review an Overview

Importance of Literature Review in Research in Physical Education.

- a. Concept of Historical, Traditional and Scientific Review.
- b. Basic Search Strategies

Unit – II

- a. Selection of topic for Literature
- b. Chronological development of the topic
- c. Current trends and Future scope

M.Phil. Semester– I

EVALUATION TECHNIQUES IN PHYSICAL EDUCATION

Unit – I

Development of Instruments for Evaluating Skill

- a. Skill test
- b. Rating test

Development of Instruments for Evaluating Knowledge

- a. Types of knowledge measuring instruments
- b. Merits and demerits of the different types of knowledge measuring instruments
- c. Construction of different types of knowledge tests
- d. Analysis of knowledge test items

Unit – II

Critical Appraisal of Basic Performance Tests

- a. Physical Fitness – AAHPERD physical fitness test
- b. Motor Fitness – Barrow motor ability test, Scott motor ability test
- c. Health Related Physical Fitness – AAHPERD health related physical fitness test

Unit – III

Measurement of Components of Motor Fitness

- a. Speed – Nelson Hand and Foot Reaction test, Nelson speed of movement test
- b. Agility – SEMO agility test, boomerang test, LSU agility test
- c. Balance – Bass stick test, modified bass stick test for dynamic balance
- d. Flexibility – Modified sit and reach test, bridge up test
- e. Strength – Pull up test, dip strength test
- f. Endurance – Burpees test
- g. Power – Vertical jump test, standing broad jump test, medicine ball throw test

Unit – IV

Critical Appraisal of Standard Skill Tests

- a. Hockey – SAI hockey skill test, Henry Friedel field hockey skill test
- b. Football – SAI football skill test, AAHPER football skill tests
- c. Basketball – SAI basketball skill test, AAHPER basketball test
- d. Volleyball – SAI volleyball skill test, AAHPER volleyball test
- e. Badminton – SAI badminton skill test, French short serve test
- f. Tennis – Dyer tennis test, He witt tennis skill test

Unit – V

Anthropometric Measurements

- a. Why measure body structure and composition
- b. Girth measurement – Chest, Upper arm, Forearm, Thigh and Calf
- c. Breadth measurement – Shoulder width, Chest width, elbow width, Hip width and Knee width
- d. Stature measurement – Shoulder height, Sitting Height, Arm Length and Leg Length

Body Composition

- a. Measuring skin fold fat
- b. Computing body density and percent body fat
- c. Optimum percent body fat and desirable body weight

M.Phil. Semester– I
SPORTS PSYCHOLOGY

Unit - I

Development of Sports Psychology

- A. History of Sports Psychology
- B. Current Concerns in Sports Psychology
- C. Future of Sports Psychology
- D. Role of Sports Psychologist

Introduction to Psychological Skills Training

- a. What is PST?
- b. Why PST is important?
- c. Why sport and exercise participants neglect PST?

Unit - II

The Psychology of Communication and Learning Effectiveness

- A. What is Communication
- B. Types of Communication
- C. Coach and Athlete- Techniques for Improving Communication

Aggression in Sports

- A. Nature of Aggression
- B. Aggression and Sports Performance

Group Cohesion in Sports

Unit - III

Personality and Sports

- A. Measuring Personality
- B. Using Psychological Measures
- C. Personality Research in Sports
- D. Theories of personality

Motivation in Sports

- A. Theories of Motivation
- B. Motivation and its Implications for Coaching and Teaching

Unit - IV

Imagery and Sports Performance

- A. Definition of the Terms
- B. Current Applied Issues in Imagery and Sports

Psychological Characteristics of Peak Performance

- A. Psychological characteristics During Peak Experiences in Sports
- B. Psychological Differences Between Successful and Unsuccessful Athletes
- C. Limitation of Peak Performance Research

Unit - V

Psycho Regulative Procedures of Activation and Relaxation

- A. Burnouts and Stress Management
- B. Muscle to Mind Procedures
- C. Mind to Muscle Procedure

Assessment of Important Psychological Variables

- A. Aggression
- B. Level of Aspiration
- C. Achievement Motivation
- D. State and Trait Anxiety
- E. Self Confidence
- F. Self Concept
- G. Mental Toughness

7. Handbook of Sports Psychology- John Wiley and Sons Inc. (By Robert Singer, Heather Hausenblas & Christopher Janelle)

M.Phil. Semester– I
SPORTS BIOMECHANICS

Unit – I

Anatomical Kinesiology

A. Concept of Bone and its Related Terms

- a. Mechanical axis of bone
- b. Factors affecting the range of joint
- c. Methods of assessing a joint range motion
- d. Method of measuring joint motion with a simple goniometer and electrogoniometer
- e. Orientation plane of body and axis of motion

B. Concept of Muscle and its Related Terms

- a. Muscles attachment and action of major muscles of the body
- b. Various role of a muscle in a given movement.
- c. Influence of gravity and other forces on a muscle action
- d. Spurt and Shunt muscles and their functions
- e. Tendon action of two joint muscles
- f. Methods of studying the action of muscle
 - a. Inspection and Palpation method
 - b. Models and Gadgets
 - c. Muscle Stimulation
 - d. Electromyography

Unit – II

Force and Gravity

A. Force

- a. Classification of Force System
 - a. Linear force system
 - b. Parallel force system
 - c. Concurrent force system
- b. Composition and resolution of force
- c. Internal and External force

B. Gravity

- a. Methods of locating Center of Gravity
 - a. Segmentation method
 - b. Reaction Board Method
 - c. Mannikin Method

Unit – III

Means of Investigation of Human Motion

A. Equipments for measuring human motion

- a. Simple and Electrogoniometer
- b. Accelerometer
- c. Dynamometer (Hand, Leg and Back)

B. Sports Photography

- a. Types of Camera and their use in sports photography
- b. Types of films
- c. Filming Fundamentals
- d. Analysis of Photography

C. Brief Introduction of other means of Investigating Human Motion

- a. Video Feedback System for sports training and coaching
- b. Human TRAC (a computer based 2/3 dimensional human motion tracking system)
- c. Digital Thermography
- d. A computer based force measurement system
- e. Pressure measurement
- f. Electromyography and Digital Electromyography
- g. Heart Rate Monitoring System
- h. Telemetry

Unit – IV

Methods of Analysis of Sports Skill / Performance

- a. **Quantitative Method** (Brief Introduction)
- b. **Qualitative Method** (Introduction and steps of qualitative analysis)
- c. **Measurement and Mathematics in Biomechanics**
 - a. Measurement of Linear and Angular Kinematics
 - b. Use of Various Equations for the measurement of linear and angular Kinematics
 - c. Calculation of sample problems

Unit – V

Qualitative Analysis of Following Sports Skill / Performance

A. Athletics

- a. Sprint Start
- b. High Hurdle Clearance
- c. Hang and Hitch kick technique of Long Jump
- d. Fosbury Technique of High Jump
- e. Peri,O' Brine Technique of Shotput
- f. Rotation Technique of Discus Throw
- g. Five Stride Technique of Javelin Throw

B. Gymnastic and Swimming

- a. Hand Stand in Gymnastic
- b. Forward and Backward Roll in Gymnastic
- c. Forward and Backward Somersault
- d. Hand Spring Skill of Vaulting Table
- e. Giant Swing Forward and Back ward
- f. Front Crawl and Back Crawl technique of swimming
- g. Analysis of Diving Technique in general

C. Other Games

- a. Chest pass and overhead Pass in Basketball
- b. Lay up shot and three point shot in Basketball
- c. Tennis and Floating Serve in Volleyball
- d. Spiking in Volleyball
- e. Back Hand Top Spin Drive in Tennis
- f. Drop Shot in Badminton
- g. Pitching in Baseball and Softball
- h. In Swing and Out swing Bowling in Cricket
- i. Straight Drive in Cricket
- j. Lofted Kick in Football

Note: Method of one sports skill from each section will be taught and other skill will be given as assignment.

M.Phil. Semester– I

EXERCISE PHYSIOLOGY

Unit - I

(A) Introduction to Exercise Physiology and muscular activity

Concept of Exercise Physiology, need of exercise physiology in physical education and sports. Muscular contraction, Hypertrophy of muscles in relation to physical activity.

(B) Neuromuscular Physiology

Neuron, Motor units, Kinesthesia, Neuro-muscular junction, Tone, posture and equilibrium.

Unit - II:

(A) Bio-Energetics

Fuel for muscular work and energy for muscular contraction, Recovery oxygen, Energetics of Phosphagen resynthesis, Muscle glycogen resynthesis, Lactate removal and recovery, Restoration of oxygen and myoglobin stores, Lipid metabolism.

(B) Energy

Direct and indirect Measurement of Energy, Measurement of energy cost of exercise, Computation of Efficiency, Factors affecting Efficiency, Ergometry, Treadmill, Stationary, Swimming Ergometry and other devices.

Unit - III:

(A) Physiological changes due to exercise and training

Effect of exercise and training on various systems, Oxygen debt, Second wind, Micro-circulation; Effect of exercise on carbohydrate, fat and protein metabolism.

(B) Physiological aspects of exercise and environment

Physiological concept of Fitness, Work capacity under different environmental conditions.

Unit - IV:

(A) Anaerobic Training and Physiological Responses

General consideration, Training principles, training phases, warm up and cool down exercises, Training methods for anaerobic performance, Physiological effects of anaerobic training, anaerobic training and skeletal muscles and heart.

(B) Aerobic Training and Physiological Responses

General consideration, Training principles, training phases, warm up and cool down exercises, Training methods for anaerobic performance, Physiological effects of anaerobic training, anaerobic training and skeletal muscles, Cardio- respiratory (systemic) changes.

Unit - V:

(A) Nutrition and exercise performance

Physiological consideration of diet in relation to components, quantities and significance. Sports and diet, diet before, during and after competition, carbohydrate and glycogen boosting.

(B) Drugs and Ergogenic aids

Effect of smoking, Drinking and Drugs and athletic performance, Anabolic and androgenic steroids, Doping methods and dope testing.

M.Phil. Semester– I

SPORTS MANAGEMENT

Unit – I

A. Historical Evolution of Management

B. Overview of leadership, Management and administration in physical education and sports.

- a. The Nature of Leadership, Management and Administration, the Unified concept of Management
- b. The Purpose, Scope of Managing Physical Education Fitness and sports programmes
- c. The Effective leader and Director.

Unit – II

A. Basic Skills/Functions in the process of Management

- a. Making wise Decisions
- b. Communicating effectively
 - c. Managing Time and setting Priority.
 - d. Planning for the activity Based Programme
 - e. Organising for the activity based programmes.
 - f. Controlling the activity Based programmes.
 - g. Delegation of Duty in the Activity Based Programmes.
 - h. Staffing and leading personnel in Activity Based programmes.

B. Fundamentals of Organizational Behaviour

- a. Foundation of a Behavioural Approach to work.
- b. The Individual and work Environment.
- c. The Human Behaviour and the climate of the work Environment.
- d. Understanding Motivated Behaviour Human Needs and Motivation, Goal setting and reinforcement, counseling and reward system.
- e. Leadership and the Human Behaviour in the work Environment
Leadership style, participative Management, Real and Imagined Leadership and effective, group performance.

Unit – III

A. Training of Administrators

- a. Training of Administrator/ Manager for better performance competency, Based Approach.
- b. Analysis administrator performance problems.
- c. How to develop behaviour and how to stop problematic behaviour punishment and extinction.
- d. Philosophy, personality and an administrator/Manager.
- e. Principles, policies and standard practices of Management.

Unit – IV

- a. Office Management.
- b. Class Management and management of Teaching Staff.
- c. Managing sports Facilities Designing and Planning sports facilities, sports facility specifications facilities and stretchers.
- d. Management of sports equipment, selection, purchase, maintenance and security.
- e. Financial Management in Physical education and sports.
- f. Management of recreation and leisure services.

Unit – V

- a. Risk Management in sports.
- b. Legal aspects of Physical Education and Administration in sports.
- c. Community Involvement and Public relation.
- d. Stress, burnout and conflicts in Management of Physical Education and sports.
- e. Unions and Labour Relations.

Devi Ahilya Vishwavidyalaya Provides Admission in Distance Mode, Admission Open For the Current Batch, So Apply Soon. The university serves almost 1,80,000 students every year through its highly qualified and educated faculty. University Provides Admission Through Online or Offline Both Mode, So Students are Comfortable in those Mode, Can Apply For the Current Year 2018 July- August Batch. School of Computer Science and Information Technology, Devi Ahilya Vishwavidyalaya, Indore. Indore, Madhya Pradesh. 1986. School of Electronics, Devi Ahilya University, Indore. Indore, Madhya Pradesh. 1989. Devi Ahilya Vishwavidyalaya in Indore India - information about programs, tuition, ranking, admission process, deadlines - {name_local} DAU founded in {established} India. Devi Ahilya Vishwavidyalaya (DAU) - public higher education institution in India. DAU began its work in the year 1964. The main building of the university proudly stands in Indore inside an urban campus. Devi Ahilya Vishwavidyalaya ranks high in the ratings of India. Application process and the cost of tuition. A year of bachelor studies will cost you around 5,000 USD. Those who wish to get their master's degree here should be ready to spend at least 5,000 USD per year. A wide range of online courses is available for the students of DAU. Devi Ahilya Vishwavidyalaya. Indore, Madhya Pradesh. UGC. State Universities. The student will choose the course and apply for Devi Ahilya Vishwavidyalaya, Indore Admission 2020. The student mentions the all correct and complete information on the application form for the Devi Ahilya Vishwavidyalaya, Indore Admission 2020. After filling the application form upload all the scanned documents, testimonials, and certificates along with recent passport size photograph and signature. Click on the "Submit Button" and submit the application form. The student can keep the application form photocopy for future use. Bachelor of Physical Education and sports (BPES). Senior secondary school from a recognized board. Reservation Seats. SC students get a 16% reservation for seats.
