A curriculum vitae, Latin for "course of life", often shortened as CV or vita (genitive case, vitae), is a written overview of someone's life's work (academic formation, publications, qualifications, etc.). Vitae can be plural or possessive (genitive case in Latin). Vitae often aim to be a complete record of someone's career, and can be extensive, but they can be (depending on country) used in the same way as a résumé, which is typically a brief 1–2 page summary of qualifications and work experience.
