

Human Behavior and the Social Environment: Social Systems Theory (5th Revised edition)

By Orren Dale, Rebecca Smith, Julia M. Norlin, Wayne Chess

Pearson Education (US). Hardback. Book Condition: new. BRAND NEW, Human Behavior and the Social Environment: Social Systems Theory (5th Revised edition), Orren Dale, Rebecca Smith, Julia M. Norlin, Wayne Chess, This unique text provides a framework for evaluating various Human Behavior theories and a context for addressing social work practice with varying levels of social systems. This revision places current theories of human behavior in a systems context. It is based upon a generalist practice foundation and includes practice examples that help students understand the underlying theory. The text examines the basic concepts in each of the various system sizes: the individual, the social group, the family, the organization, and the community. It includes expanded coverage of spirituality, diversity, values and ethics, social and economic justice/oppression, populations-at-risk, and other areas.

"That human behavior is more influenced by things outside of us than inside. The 'situation' is the external environment. The inner environment is genes, moral history, religious training." -Philip Zimbardo. Recognizing that individuals go through stages of development from birth until death and the issues/dilemmas facing each stage will better help the social worker not only emphatically meet the client where they are, but offer solutions to problems that are both feasible and able to be comprehended by the individual at their respective stage. Understanding that the word 'Family' does not always mean blood relatives and how the modern family is adapting and changing from what it used to be helps social workers address the dilemmas that come with a diverse definition of the word. Social, emotional and behaviour difficulties (SEBD) have been defined as referring to: "Behaviours or emotions that deviate so much from the norm that they interfere with the child's own growth and development and/or the lives of others" (Woolfolk, Hughes, & Walkup, 2010, p. 165). In the school setting, SEBD can manifest themselves in many different ways, including inattentiveness in lessons; non-compliant behaviour and oppositionality; anti-social behaviour including physical and verbal aggression; View. We suggest that the group modality epitomizes the application of resiliency theory and adversarial growth to social work practice. The utility of this framework for Human Behavior in the Social Environment (HBSE) education is discussed. Read more. Social and Behavioral Theories. 1. Learning Objectives. After reviewing this chapter, readers should be able to: Define what theory is and identify two key types of social and behavioral science theory that are relevant to public health interventions. Thus, changes in the environment, the examples of role models, and reinforcements can be used to promote healthier behavior. Reciprocal Determinism. This core construct is also central to social ecological models and is more important today than ever before. The social ecological model helps to understand factors affecting behavior and also provides guidance for developing successful programs through social environments.
