

Human Behavior and the Social Environment: Social Systems Theory (5th Revised edition)

By Orren Dale, Rebecca Smith, Julia M. Norlin, Wayne Chess

Pearson Education (US). Hardback. Book Condition: new. BRAND NEW, Human Behavior and the Social Environment: Social Systems Theory (5th Revised edition), Orren Dale, Rebecca Smith, Julia M. Norlin, Wayne Chess, This unique text provides a framework for evaluating various Human Behavior theories and a context for addressing social work practice with varying levels of social systems. This revision places current theories of human behavior in a systems context. It is based upon a generalist practice foundation and includes practice examples that help students understand the underlying theory. The text examines the basic concepts in each of the various system sizes: the individual, the social group, the family, the organization, and the community. It includes expanded coverage of spirituality, diversity, values and ethics, social and economic justice/oppression, populations-at-risk, and other areas.

Chess. Published 1997. Social and Behavioral Theories. 1. Learning Objectives. After reviewing this chapter, readers should be able to: â€¢ Define what theory is and identify two key types of social and behavioral science theory that are relevant to public health interventions.Â Thus, changes in the environment, the examples of role models, and reinforcements can be used to promote healthier behavior. Reciprocal Determinism. This core construct is also central to social ecological models and is more important today than ever before.Â The social ecological model helps to understand factors affecting behavior and also provides guidance for developing successful programs through social environments.
